

Features

- Durable knob for consistent detent feel
- Slim 4.5mm body thickness
- Low-noise design for 120RPM max.
- Hollow center to add switch, illumination, or other component
- Custom options available

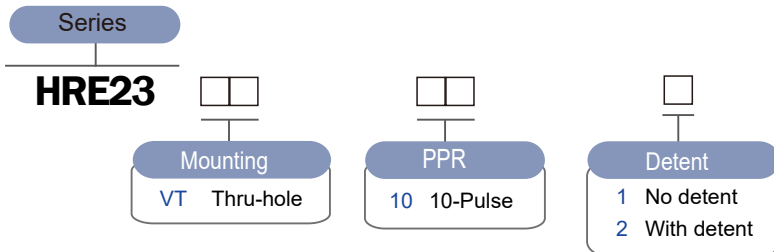

Applications

Panel control with continuous rotation. Popular for automotive infotainment, navigation, audio mixer, or appliance.

Encoder Specification

Pulse	Number of detent	Chattering (msec)	Sliding noise (msec)	Insulation resistance	Dielectric strength	Detent torque (gf • cm)	Rotational life (cycle)
10	20	8	3	100V DC 100M Ω MIN.	100V AC 1 min	70 \pm 40	50,000
