

Features

- Illuminated LED integrated
- Wave soldering process
- 100,000 long-life cycles
- Various LED color, optional cap
- Custom options available

Applications

Panel control that requires tactile switch with illumination intrgrated.
Popular for applications in audio, industrial, medical, communication

Potentiometer Specification

Operating Temperature	-20°C to +70°C
Operating Force	220gf
Travel	0.25mm
Total Height	5.0mm
Power Rating	12 VDC at 50mA
Insulation Resistance	100MΩ
Dielectrical Strength	250VAC for 1-minute
Life Cycle	100,000

How to order

Model	Dimension (mm)
